

Job Requirements for Entry-Level Web Developer

Job Title: Entry-Level Web Developer

Job Summary:

We are seeking a motivated and detail-oriented Entry-Level Web Developer to join our team.

The ideal candidate will have a basic understanding of web development technologies and a passion for building user-friendly web applications.

Responsibilities:

- Develop, test, and maintain responsive web applications.
- Collaborate with designers and backend developers to implement features.
- Debug and troubleshoot issues in existing applications.
- Ensure cross-browser compatibility and performance optimization.
- Stay up-to-date with emerging web technologies and best practices.

Qualifications:

- Bachelor's degree in Computer Science, Information Technology, or a related field (or equivalent experience).
- Basic knowledge of HTML, CSS, and JavaScript.
- Familiarity with front-end frameworks like React or Vue.js is a plus.
- Understanding of back-end technologies like Node.js, PHP, or Python is a bonus.
- Experience with version control systems (e.g., Git) is preferred.
- Strong problem-solving skills and attention to detail.
- Ability to work both independently and collaboratively in a team environment.

Benefits:

- Competitive salary and benefits package.
- Opportunities for career growth and professional development.
- Flexible work environment.
